Project Brief

Public Land & Natural Resources Management Project has been undertaken in Lari Sub-county for three years (2012-2015). The project encompasses all the 5 wards of Lari Sub-county (Kijabe, Kinale, Lari-Kirenga, Kamburu and Nyanduma). The goal of the project was to:

Support community members led by women from Lari Sub-County in Kiambu County to safeguard and protect public land.

Targeted Community members

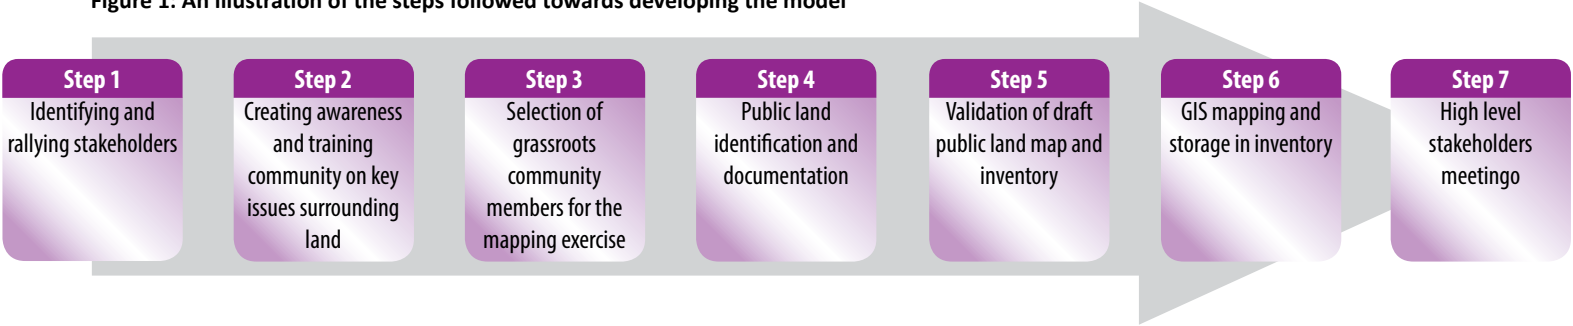

The project targeted the entire population in Lari Sub-county but has been spearheaded by over 50 grassroots community members with the support of at least 30 men supporting women leadership.

The project has so far directly engaged with 1,025 (430 M and 595 F) from Lari community and worked together with 3,474 (1,233 M, 2,241 F) grassroots community members from 11 sub-counties of Kiambu County.

Key results of the project:

- 1. Development of the Community-led Public Land Mapping Model.** The model demonstrates how community members take lead in identification, documentation and storage of public land as an approach to safeguarding land from illegal or irregular allocation.

Figure 1: An illustration of the steps followed towards developing the model

2. **Digital map of over 487 public facilities and utility Land in the entire Lari-Sub-county.** They include cemeteries, learning Institutions, health facilities, recreational and club areas, waste points, water points, market centers and reserved parcels. The inventory also documents other related social services that are important for development planning. The inventory is accessible on <http://groots-kenya.maps.arcgis.com>
3. **Development of print maps, online inventory of available public land in the entire Lari Sub-county.**
4. **Publication of a Community-led Public Land Mapping Guidebook.** The book details how other communities can undertake a similar process.

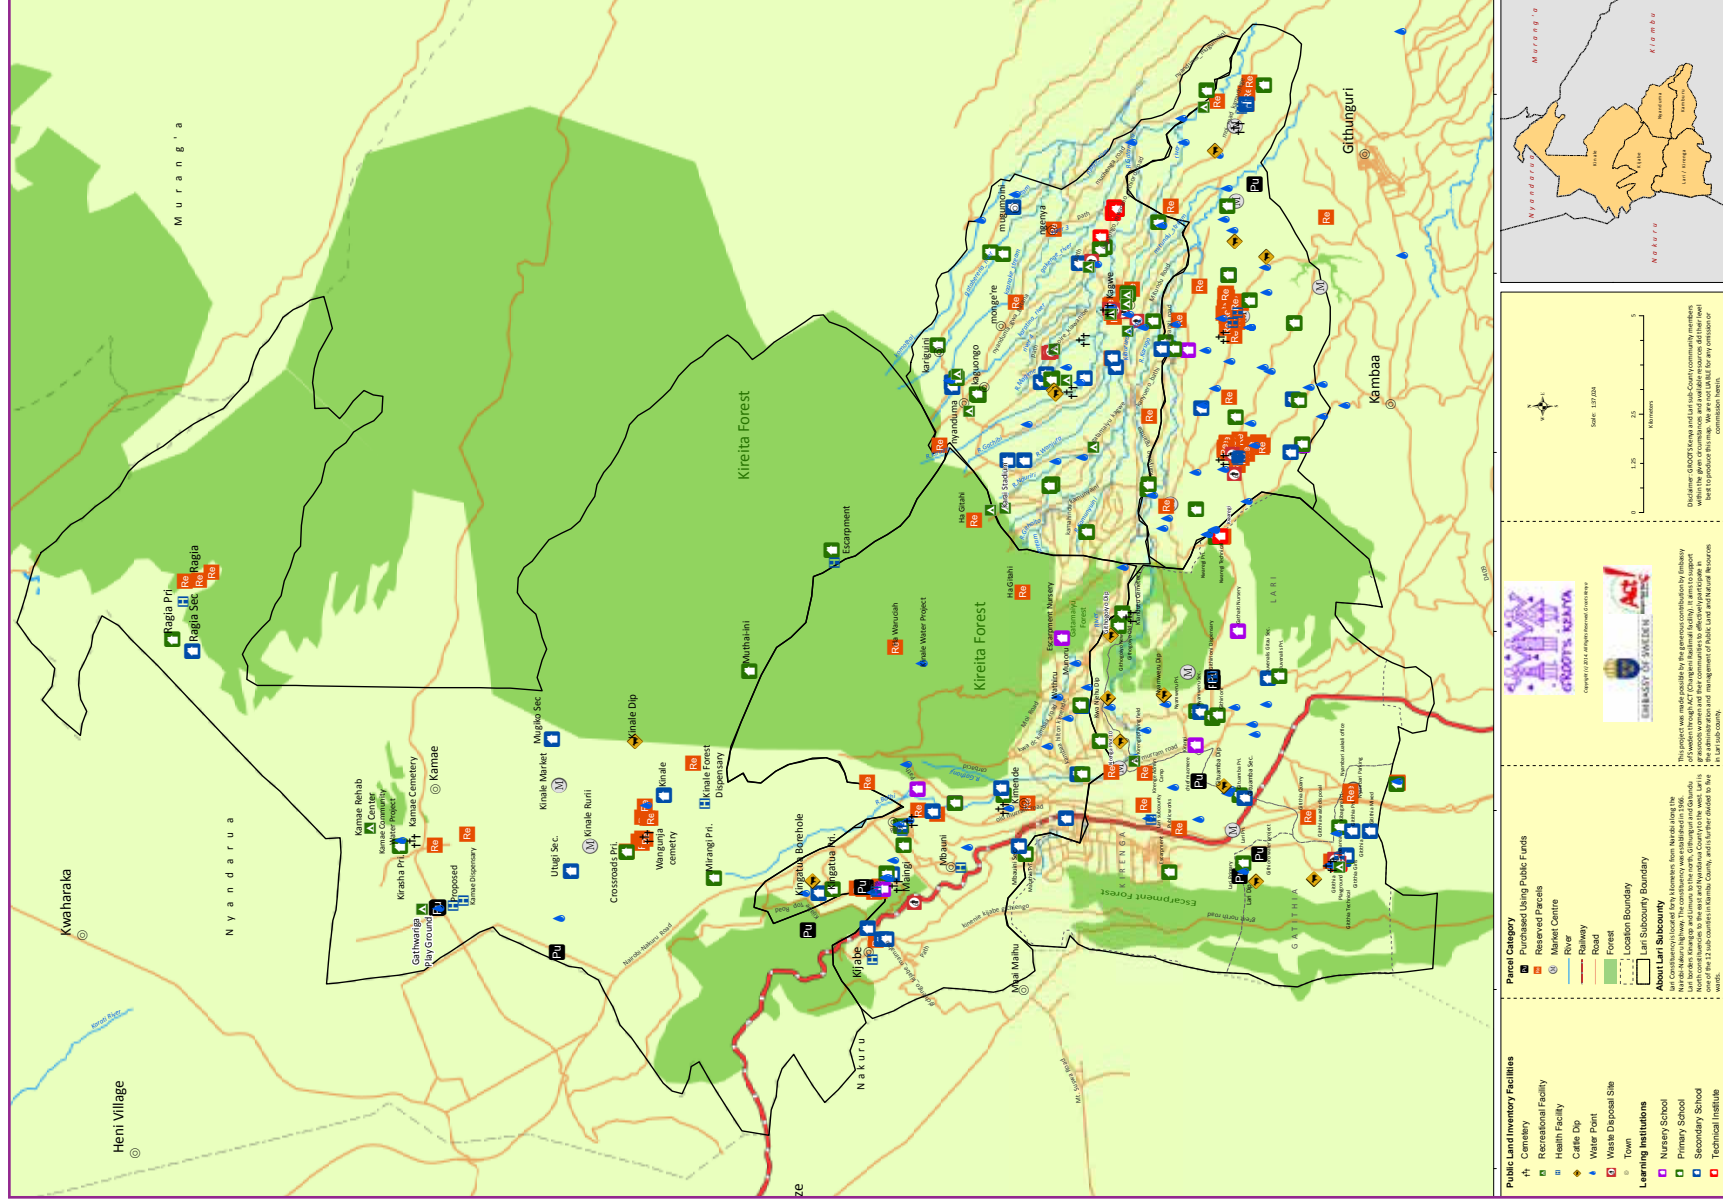

How has this project impacted the community?

Kinale Ward	Nyanduma Ward	Kijabe Ward
A religious institution that has been occupying public utility land identified during the mapping is in the process of relocating the structure.	A public land identified during the mapping has been proposed as a site for an A.P. post and chief's office.	Three access roads voluntarily surrendered
The community in partnership with its leaders have petitioned the National Land Commission (NLC) to review previous allocations of public land in the Ward.		

Key Stakeholders engaged in the project:

Stakeholder /Partner	Contribution
GROOTS Kenya	Implementing organization
ACT (Act Change Transform)	Funding support
Ministry of Interior & Coordination of National Government - Lari Sub-County.	Security and technical guidance
MCA's from Lari sub-county	Political goodwill and support.
Land Sector Non State Actors	Technical guidance
KENVO (Kijabe Environment Volunteers)	Local community partner and community entry

Public land inventory in Lari Sub-county, Kiambu County

Grassroots women are positioned to lead the public land mapping process because they spearhead many community initiatives and are therefore likely to have more commitment in the process
